

Murashige & Skoog Basal Salts

With Macronutrients, Micronutrients, Vitamins and Glycine

Complete MS basal salts for the preparation of plant tissue culture media. Formulated with macronutrients, micronutrients, vitamins and glycine essential for optimal growth and development of plants in vitro.

Complete Formula

Contains macro and micronutrients, vitamins and glycine essential for plants

Optimized Growth

Supports healthy in vitro growth and development of a wide range of plant species

High Quality for Tissue Culture

Ideal for various applications in plant tissue culture

Consistent Quality

Manufactured according to strict quality standards

APPLICATIONS

- Preparation of Murashige & Skoog (MS) culture media
- Plant tissue culture and micropropagation
- Shoot and root induction
- Callus induction and plant regeneration
- Research in plant physiology and biotechnology

PRODUCT DESCRIPTION

Murashige & Skoog basal salts provide all the essential nutrients required for in vitro plant growth. This formulation includes macronutrients, micronutrients, vitamins and glycine to support growth, organogenesis and micropropagation in a wide variety of plant species.

SPECIFICATIONS

Product Name :	Murashige & Skoog Basal Salts With Macronutrients, Micronutrients, Vitamins and Glycine
Form :	Powder
Application :	Plant Tissue Culture
Size :	50 L - 1 Bottle
Ref. :	CTLV-0139-05
Net Weight :	221.50 G
Storage :	2-8°C

STORAGE AND HANDLING

- Store at 2-8°C
- Keep tightly closed after use
- Protect from moisture and direct light
- Handle according to good laboratory practices
